1. Production Website:

2. Validate 1 question:

Postman interface showing a GET request to `https://api.nbl.one/discovery/v1/community/related?limit=10`. The response is a JSON object with a `description` field containing a paragraph about Canadian study permits.

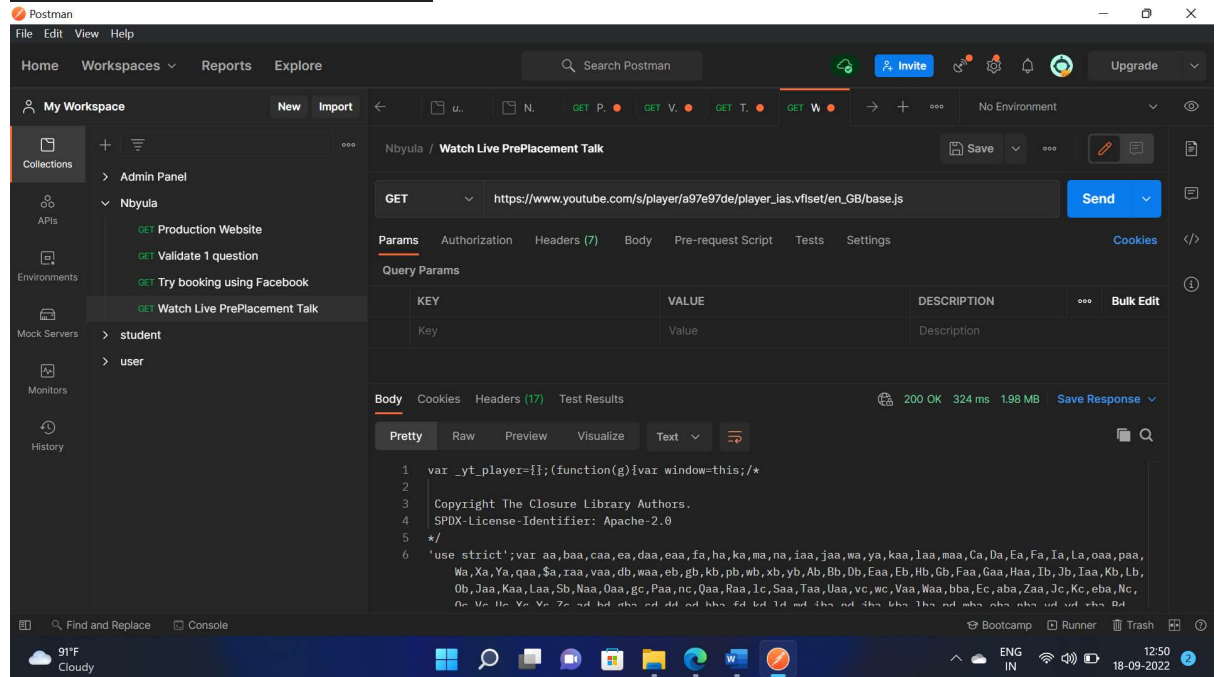

```
{
  "name": "studyincanada",
  "displayName": "Study in Canada",
  "description": "In order to study in Canada, you will need to obtain a Canadian study permit, which serves as a Canadian student visa for the duration of your stay. You do not need a Canadian study permit if your course or program lasts six months or less. To find out more, read our guide to getting a Canadian student visa. In order to study in Canada, you will need to obtain a Canadian study permit, which serves as a Canadian student visa for the duration of your stay. You do not need a Canadian study permit if your course or program"
}
```

3. Try booking using Facebook:

Postman interface showing a GET request to `https://connect.facebook.net/en_US/fbevents.js`. The response is a text block containing a copyright notice and a license agreement for Facebook.

```
